Amethystclothing.lk — Workspace & Environment Audit

> **Date:** 2026-11-11 09:47 IST
> **Project Root:** `C:\xampp\htdocs\amethystclothing`
> **Status:** 🟢 Environment ready — clean slate for Phase 1

1. Directory & Assets Scan

Root Files

File	Size	Status
`.env`	0 B	**Empty** — needs DB credentials & app config
`index.php`	0 B	**Empty** — entry point placeholder
`info.txt`	6.9 KB	Sinhala feature specification document (49 features listed)
`amethystclothing_db.sql`	39 KB	Full 694-line enterprise schema (40 tables, 11 modules)

Directories

```
amethystclothing/
├── .git/                    ← Initialized, connected to GitHub
├── admin/
│   └── index.php            ← Empty (0 B)
├── assets/
│   ├── fonts/               ← 37 font files
│   └── images/              ← 14 brand assets
├── .env                     ← Empty
├── amethystclothing_db.sql
├── index.php                ← Empty
└── info.txt
```

`assets/images/` — 14 Brand Assets

File	Size	Notes
`icon_b.png`	7.2 KB	Dark icon
`icon_w.png`	7.6 KB	White icon
`logo_b-color.png`	25.3 KB	Black + brand color, horizontal
`logo_b-color_squre.png`	15.1 KB	Black + brand color, square
`logo_b-color_squre_t.png`	10.6 KB	Black + brand color, square, transparent
`logo_black.png`	18.5 KB	Pure black, horizontal
`logo_black_squre.png`	14.7 KB	Pure black, square
`logo_black_squre_t.png`	9.6 KB	Pure black, square, transparent
`logo_w-color.png`	26 KB	White + brand color, horizontal
`logo_w-color_squre.png`	15 KB	White + brand color, square
`logo_w-color_squre_t.png`	10.9 KB	White + brand color, square, transparent
`logo_white.png`	19.7 KB	Pure white, horizontal
`logo_white_squre.png`	14.8 KB	Pure white, square
`logo_white_squre_t.png`	10.1 KB	Pure white, square, transparent

> **TIP**
>
> Full logo asset matrix: **4 color variants** × **3 shapes** (horizontal, square, square transparent) **+ 2 standalone icons** = complete branding kit ready for dark/light themes.

`assets/fonts/` — 37 NotoSansSinhala Font Files

All TTF format, covering the full weight spectrum (Thin → Black) across 4 width families:

Family	Weights	Files
NotoSansSinhala (Normal)	Thin, ExtraLight, Light, Regular, Medium, SemiBold, Bold, ExtraBold, Black	9
NotoSansSinhala_Condensed	Same 9 weights	9
NotoSansSinhala_ExtraCondensed	Same 9 weights	9
NotoSansSinhala_SemiCondensed	Same 9 weights	9
`OFL.txt`	—	1 (license)

> NOTE
>
> Sinhala language support is fully covered. **English/Latin display fonts** (e.g., a luxury serif or geometric sans for headings) are **not yet present** and will need to be added in Phase 1.

2. Git Repository State

Property	Value
Branch	`main`
Remote	`origin` → `https://github.com/real-tech-solutions/amethystclothing.git`
Sync	Up to date with `origin/main`

Working Tree Changes

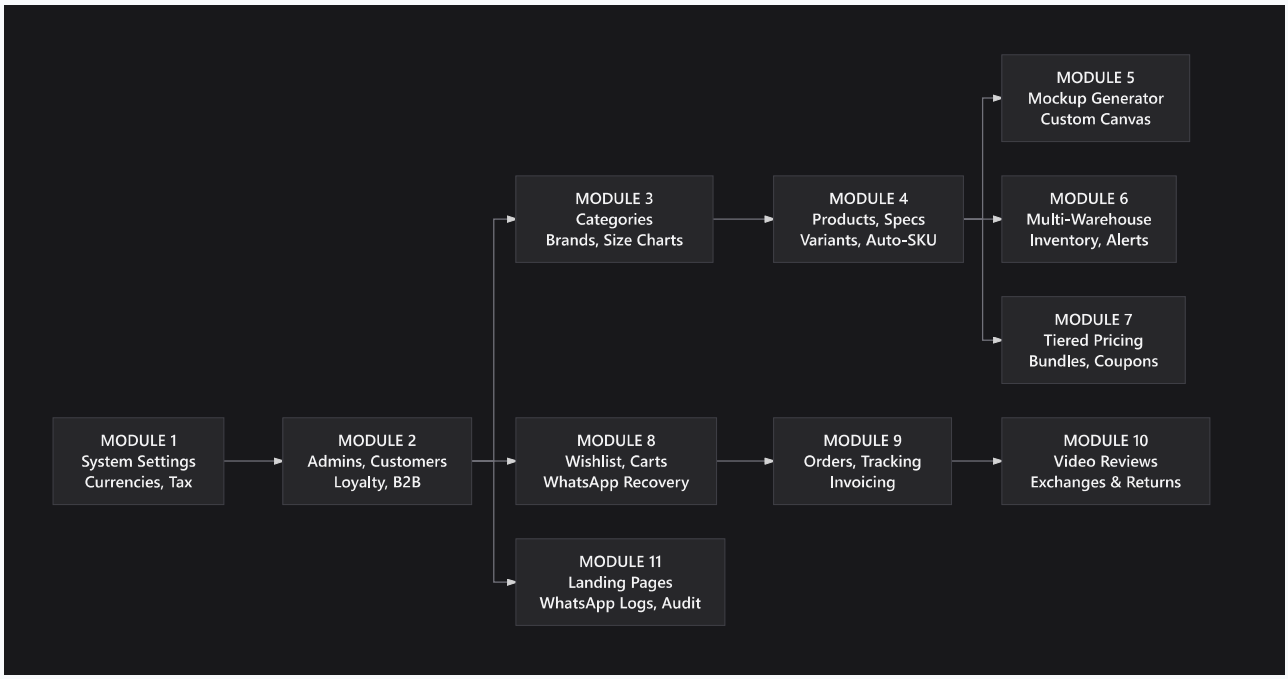

Status	File
🟡 Modified (unstaged)	`amethystclothing_db.sql`
🟡 Modified (unstaged)	`info.txt`
🔴 Untracked	`admin/`
🔴 Untracked	`index.php`

> IMPORTANT
>
> Local modifications to the SQL and info files exist but are **not yet staged or committed**. Consider committing this baseline before Phase 1 begins.

3. Database Inspection

SQL Schema Summary (`amethystclothing_db.sql`)

Engine: InnoDB | **Charset:** utf8mb4_unicode_ci | **Tables:** 39 across 11 modules

▶ **All 39 Tables by Module**

Live Database Status

Check	Result
MySQL Connection	🟢 Connected (`root@localhost` , no password)
Database Exists	🟢 `amethystclothing_db` found
Tables Imported	🟢 All **39 tables** present
Data Rows	⚪ All tables have **0 rows** — schema only, no seed data

> NOTE
>
> The SQL has already been imported — all 39 tables exist with correct structure. All tables are **empty** and awaiting seed data (currencies, site settings, admin account, etc.).

4. Apache / PHP Environment

PHP Version

```
PHP 8.0.30 (cli) (ZTS Visual C++ 2019 x64)
Zend Engine v4.0.30
```

> WARNING
>
> PHP 8.0 reached **end of life on Nov 26, 2023**. It works fine for development but consider upgrading XAMPP to PHP 8.2+ before production. No blockers for Phase 1.

Key PHP Extensions — All Present ✅

Extension	Status	Purpose
`mysqli`	✅	MySQL connection (procedural)
`pdo_mysql`	✅	MySQL connection (PDO)
`curl`	✅	WhatsApp API, payment gateways
`json`	✅	API responses, JSON columns
`mbstring`	✅	Sinhala/Unicode string handling
`openssl`	✅	HTTPS, encryption, tokens
`session`	✅	User sessions
`fileinfo`	✅	File upload MIME validation
`exif`	✅	Image metadata
`zip`	✅	Export/download features

> NOTE
>
> `gd` or `imagick` extension was **not detected** in the loaded modules. This will be needed for image processing (mockup generator, thumbnails, invoice PDF generation). Verify by enabling `extension=gd` in `php.ini` if needed.

Apache Configuration

Setting	Value	Status
`mod_rewrite`	Loaded (line 163, `httpd.conf`)	✅ Ready
`AllowOverride`	`All` (lines 273, 388)	✅ `.htaccess` fully supported

> NOTE
>
> `php` is not in the system PATH. Use `C:\xampp\php\php.exe` for CLI commands, or add `C:\xampp\php` to PATH.

5. Readiness Summary

Area	Status	Action Needed
Brand Assets	🟢 Complete	14 logos/icons across all variants
Sinhala Fonts	🟢 Complete	37 NotoSansSinhala TTFs
English/Display Fonts	🔴 Missing	Add luxury serif/sans fonts for headings
Git Repo	🟡 Uncommitted changes	Stage & commit baseline before Phase 1
Database Schema	🟢 Imported	39 tables, 0 rows — ready for seed data
Database Seed Data	🔴 Empty	Needs currencies, tax rates, admin account, site settings
PHP Runtime	🟡 PHP 8.0 (EOL)	Works for dev; upgrade before production
GD Extension	🟡 Not loaded	Enable in `php.ini` for image/mockup features
mod_rewrite	🟢 Ready	`.htaccess` clean URLs supported
`.env` Config	🔴 Empty	Needs DB credentials, app keys
`index.php`	🔴 Empty	Entry point not yet built
`admin/index.php`	🔴 Empty	Admin panel not yet built

> [!IMPORTANT]
> **Bottom line:** The environment is healthy and the database schema is fully imported. The project is a **clean slate** — all PHP files are empty placeholders. Ready to receive Phase 1 instructions.
